

## **Summary Tables for FY 2014 Northeast Multispecies Fishery**

These summary tables were produced by NOAA Fisheries Service's Greater Atlantic Regional Fisheries Office. The summary tables compare data for the full twelve months of the Northeast Multispecies fishing year (May-April) for fishing years 2010 through 2014. These tables, as well as additional data and analysis, will be presented in the 2014 Final Report on the Performance of the Northeast Multispecies (Groundfish) Fishery (May 2014 - April 2015), to be produced and released by NOAA's Northeast Fisheries Science Center's Social Science Branch in Spring 2016. The FY2014 Final Report may be viewed on the NEFSC's Social Sciences Branch homepage.

Note throughout this report "Trips" refer to commercial trips sailing under a federal limited access groundfish permit. Landings are in landed weight unless otherwise specified. Groundfish trips include estimates of missing dealer report data.

Unless otherwise indicated this report is based on active vessels, which are vessels that received revenue from any species on any trip while fishing under a federal limited access groundfish permit.

Note that in tables with vessel counts, sector and common pool counts or home state counts may exceed the total vessel count because vessels may switch between sector and common pool eligibilities or home ports during the fishing year.

Data may be grouped or display "NA" due to data confidentiality.

These data are the best available to NOAA's National Marine Fisheries Service (NMFS). Data sources for this report include: (1) Vessels via VMS; (2) Vessels via vessel logbook reports; (3) Dealers via Dealer Electronic reporting. Differences with previous reports are due to corrections made to the database.

### **List of Tables**

Table 1. Summary of major trends – includes all vessels with a valid limited access multispecies permit.

Table 2 – Total landings and revenue from all trips in 2010 dollars.

Table 3 – Total landings and revenue from groundfish trips in 2010 dollars.

Table 4 – Value of landings of all species by state and port of landing in 2010 dollars (all trips)

Table 5 – Value of landings of all species by home state and home port in 2010 dollars (all trips)

Table 6 – Value of landings of groundfish by state and port of landing in 2010 dollars (all trips)

Table 7 – Value of landings of groundfish by home state and home port in 2010 dollars (all trips)

Table 8 – Value and landed pounds of nine allocated groundfish species landed by limited access groundfish vessels in 2010 dollars

Table 9 – Value and landed pounds of top ten non-groundfish species landed by limited access groundfish vessels in 2010 dollars

Table 10 – Number of vessels by fishing year

Tables 11 and 12 - Numbers of vessels with revenue from any species (all trips) and from at least one groundfish trip, respectively, by home port state.

Tables 13 and 14 - Numbers of vessels with revenue from any species (all trips) and from at least one groundfish trip, respectively, by vessel size.

Table 15 – Effort by active vessels (by size category) . Shows the number of groundfish and non-groundfish trips, with days absent and average trip length.

Table 16 – Average revenue per vessel in 2010 dollars (by size category). Shows the average revenue per vessel and number of active vessels on groundfish trips and non-groundfish trips.

Table 31 - Sector stock-level catch, ACE and utilization.

Tables 34 and 35 - Distributions of revenue from all species and from groundfish, respectively, among vessels.

Tables 38b and 39b - Numbers of vessels with revenue from all species and from groundfish, respectively, by cumulative quartiles.

Table 40 – Changes in employment indicators by vessel size category.

Table 41 – Changes in employment by home state. Shows total number of crew positions, crew trips, crew days, and crew day/crew trip.

### **List of Figures**

Figure 1. Yearly average price (in 2010 dollars) of combined groundfish vs. other species

Figure 2. Yearly average price (in 2010 dollars) by allocated groundfish species.

Over time the number of vessels will differ from the number of eligibilites because these eligibilities can be transferred from vessel to vessel during the fishing year.

These vessel counts exclude groundfish limited access eligibilities held as CPH. Starting in 2010, Amendment 16 authorized CPH holders to join sectors and to lease DAS. For purposes of comparison, CPH vessels are not included in the data for either sector or common pool.
